 PHONE: (847) 729-5300 - FAX: (847) 729-7062
 WWW.MARCHPUMP.COM

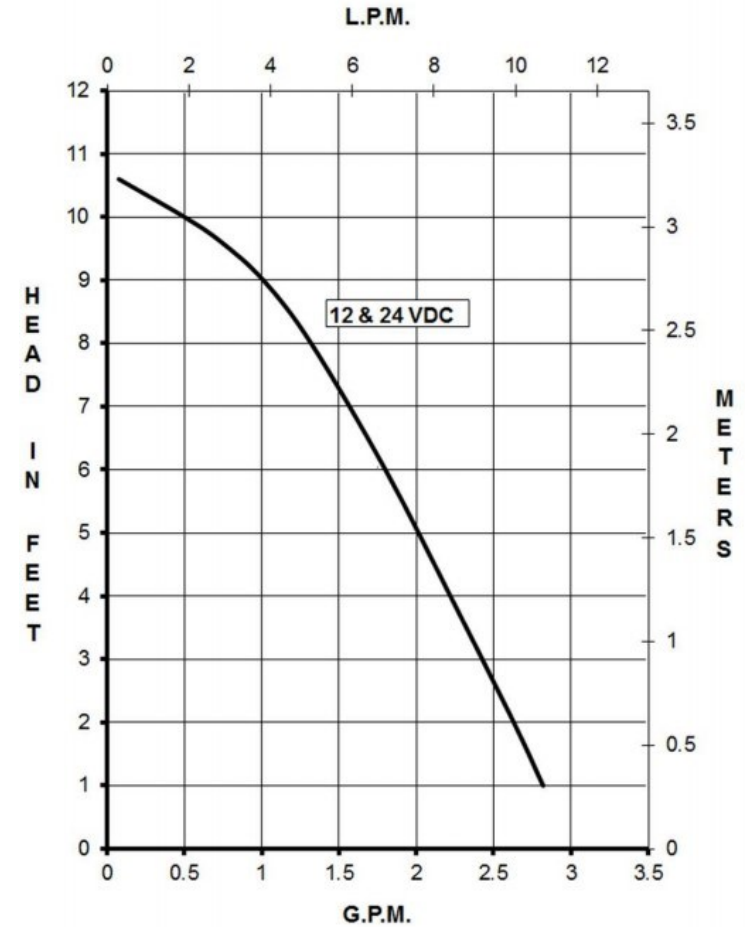

DESCRIPTION & OPERATION: Series 893 are centrifugal magnetic drive pumps. The 893-13 and 893-14 pumps are hermetically encapsulated which allows the pump to be run fully submerged, and the pumps can only be used submerged in the liquid. A flooded suction is essential for operation since the pump is not self-priming. Pumps cannot be run dry because the impeller requires the liquid being pumped for lubrication. For application assistance, contact March Pump.

ELECTRICAL: The Brushless Motors have voltage protection. Red lead is positive, black lead is negative.

Model 893-13 (12 VDC) starts at 5.5 V \pm \approx 0.5 V and turns off at 17.5 V \pm \approx 0.5 V.

Model 893-14 (24 VDC) starts at 8.5 V \pm \approx 0.5 V and turns off at 28 V \pm \approx 0.5 V.

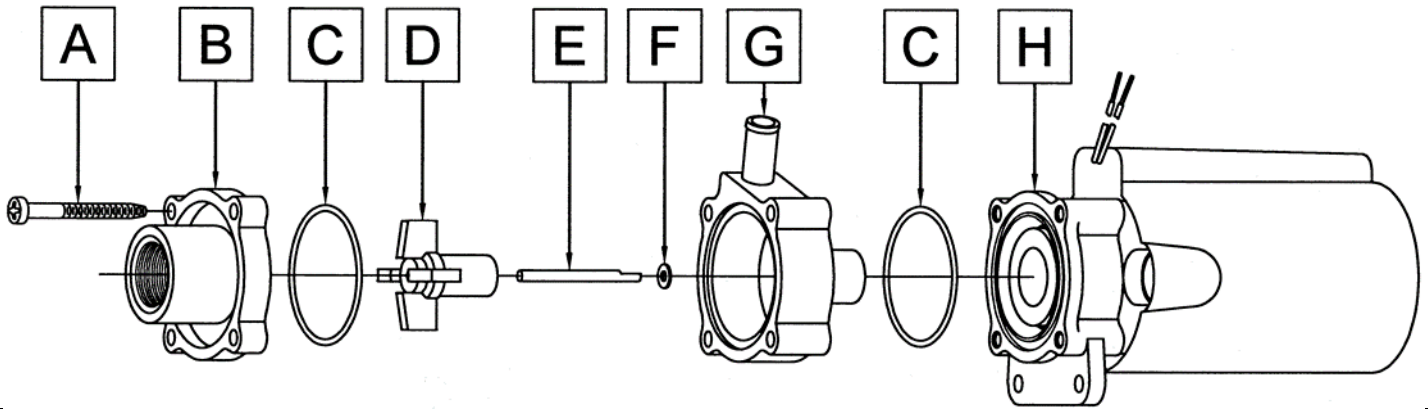

893 Brushless Paragon Motor w/Voltage Protection 893-13 & 893-14

Specifications		893-13 (12V DC)	893-14 (24V DC)
Product	P/N	0893-0072-0100	0893-0073-0100
Inlet-Outlet		3/8" FPT-3/8" OD	3/8" FPT-3/8" OD
Max Internal Pressure		50PSI (344 kPa)	50PSI (344 kPa)
Max Liquid Temperature	Submerged	120F (49C)	120F (49C)

Model	Max Flow		Max Head			Electrical					Packed Weight
	GPM	LPM	FT	PSI	M	Voltage	Amps	HP	kW	RPM	Pounds
893-13	2.7	11	10.6	4.5	3.3	12	0.85	1/150	0.004	4000	1.5
893-14	2.7	11	10.6	4.5	3.3	24	0.5	1/150	0.004	4000	1.5

All specifications & data are based on pumping water & are intended as a guideline only. Specifications may vary with different motors.
